Although many amendments have been proposed, a vote on the bill probably can be taken before ad-

journment Saturday night.

Another answer of administration forces to the arguments marshalled against repeal of the Panama tolls exemption was made yesterday by Senator Simmons. He argued that the exemp tion of American constwise vessels would be a discrimination forbidden by the treaty between the United States and Great Britain and unwise as a domestic policy. Not to repeal the exemption, he would mean that the United States would hereafter be confronted with a worldwide public sentiment of chagrin, distrust, disapproval and resent-

Notes.

Bjork, the pinch hitter, leads Spaulding in batting with an average of .667.

Hooker's work behind the bat was excellent. He handled Kidder's delivery as well as could be expected. But one base was stolen off his strong arm.

Tomasi's sprinting around the base paths in the 10th inning for the run that scored the game was spectacular. He also endeavored to catch the Montpelier

By winning over Montpelier, Spaulding's record complete contains nine victories and one defeat in preparatory school circles. The only game lost was to Goddard on Monday. Arrangements are being effected for a third game between these two schools for some date

OVER VANITIE

In Second Preliminary Contest Between Cup Boats-Very Light

Rye, N. Y., June 4.-Sailing under almost perfect weather conditions, the Herreshoff designed Resolute defeated Cochran's Vanitie in the second trial race for candidates for America's cup defender. Resolute's victory came after a 25-mile race, by a margin of 11 sec

The Vanitie, owned by Alexander Smith Cochran, and winner of the first contest, was out-jockeyed at the start by the Resolute, with Charles Francis Adams, 2d, at the helm, and crossed the line 12 seconds behind her revival.

The race was over a course to windward and leeward, each leg a trifle over six and one-fourth miles, sailed four Hempstead bay.

The yachts crossed the line in a seven-knot breeze, rails under, on the starboard tack, with only room for a biscuit to be tossed between them. In the first half hour of the race the Resolute had gained nearly a half min-ute on her rival, and was about 20 yards

When the yachts rounded the third mark the Resolute had a lead of about 200 yards over the Vanitie. The Resolute kept ahead and crossed

he finish line first.

Tremendous Changes in Babies' Clothes.

In the fashion department of the June Woman's Home Companion appears an article entitled "Clothes for the Tiny Girl and Boy," in the course of which he author writes in part, as follows, about the changes in babies' clothes within the past 50 years:

"Times have changed since the days when the regulation baby dress was the Mother Hubbard model, gathered straight widths on a square or round yoke. The styles for the little children of to-day change with each succeeding season with as much versatility as for the grownups. Back in the early 60s. babies were clothes almost counterparts of their parents'. The infant's frock tities of petticouts suggested the hoop without.
